

1. Ordinary Slot Holders – Entry / Learn & Watch

Q1: What is FSTL COMET OS? FSTL COMET OS is a secure, fraud-proof property verification system. Ordinary Slot Holders get basic access to verified property updates and early notifications. It's designed to let you watch, learn, and start participating safely.

Q2: How does it work? The system verifies property ownership and ensures legitimacy through bank and digital checks. Ordinary Slot Holders receive simple updates and can track verified opportunities without complex steps.

Q3: Why is it unique? No other system in Nigeria offers bank-verified property updates in a secure, accessible way. Ordinary Slots let you step into the ecosystem safely, with minimal risk.

Q4: What do I get as an Ordinary Slot Holder?

- Early notifications of verified properties
- Low-risk entry to the FSTL COMET OS ecosystem
- Pathway to higher-tier slots if you choose

Q5: How do I participate? DM us to secure your Ordinary Slot. Spaces are limited, first-come, first-served.

Next Step: DM now to start observing the future of property verification in Nigeria.

2. Intermediary Slot Holders – Engage / Moderate Influence & Access

Q1: What is FSTL COMET OS? FSTL COMET OS is a next-gen property verification and management system. Intermediary Slot Holders get enhanced access, including priority updates, moderate engagement in investment opportunities, and Phase II entitlements.

Q2: How does it work? It consolidates property records, verifies ownership via banks, and tracks transactions securely. Intermediary Slot Holders can monitor developments, interact with advisors, and participate in structured investment opportunities.

Q3: Why is it unique?

- Bank-verified, fraud-proof property system

- Priority access to verified properties
- Phase II entitlements giving moderate strategic advantage

Q4: What do I get as an Intermediary Slot Holder?

- Early and priority updates on verified properties
- Access to Phase II investment opportunities
- Ability to interact with FSTL advisors
- Moderate ROI potential as the system scales

Q5: How do I participate? DM now to secure your Intermediary Slot. Limited slots mean early action is critical for Phase II entitlements.

Next Step: DM today to engage actively and gain privileged access in property verification.

3. Expert Slot Holders – Strategic / Full Access & Decision-Level Insight

Q1: What is FSTL COMET OS? FSTL COMET OS is a fully bank-verified, fraud-proof property verification and title management platform. Expert Slot Holders get complete access to operations, governance, legal frameworks, and strategic investment opportunities.

Q2: How does it work? It verifies ownership, tracks every property transaction, and provides full transparency. Expert Holders can:

- Access dashboards and technical reports
- Participate in governance decisions
- Review legal and financial documentation
- Make informed high-level investment decisions

Q3: Why is it unique?

- Full operational and technical transparency
- Structured Phase II and III entitlements
- Influence over governance and strategic direction
- Early access to high-value verified properties

Q4: What do I get as an Expert Slot Holder?

- Priority access to all verified properties
- Phase II and III entitlements
- Direct advisory access to FSTL experts
- Detailed ROI projections and risk analysis

- Ability to influence system strategy

Q5: How do I participate? DM immediately to secure an Expert Slot. Slots are extremely limited, and securing one ensures full strategic access and maximum potential return.

Next Step: DM now for full operational, technical, and strategic access to FSTL COMET OS.
